## Be a RecycleKiwi with these 4 easy steps

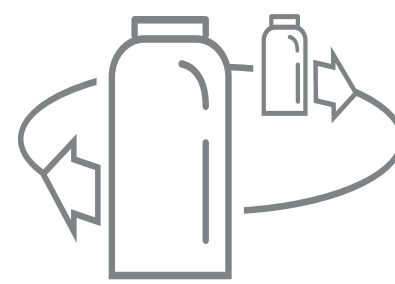

### Refuse

Say 'No' to waste. This choice is powerful. Consider the packaging when you buy things. Refuse anything unnecessary.

### Reduce

Understand the impact that waste has on our natural environment. What are you doing to reduce waste?

### Reuse

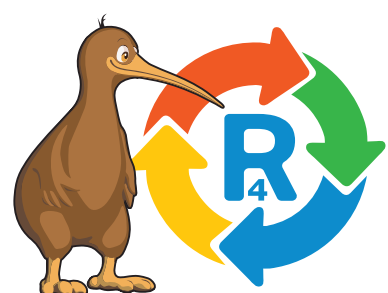

Give things a second life cycle... reuse, repair and share. Wash and reuse containers and refill your water bottles.

### Recycle

Recycling is very important in reducing waste. Take care when separating recyclables.

**We can all make choices... together we can create change**

**RecycleKiwi®**  
Refuse • Reduce • Reuse • Recycle

RecycleKiwi® is proudly brought to you by CrestClean, Leaders in Environmentally Sustainable Cleaning.
